Gun Safety for Kids!

October 10, 2009 1-4pm
Meadow Lakes Senior Complex
1210 North Kim Drive.
907-XXX-XXXX

Class Limited to 10 Kids for Age 8 & Up!

This class will be hands-on training. Each child will handle several types of firearms. They will be taught to hold them safely and unload the firearms. We will be using "cut aways". These are guns that look and feel like real firearms but cannot fire anymore. They are only used as training tools. It is preferred that parents participate with their children. The recommended age of the children is 8 and up. Class is approximately 3 hours.
